

RISK OF LOSS. Purchaser, individually and as agent of the property, if any, understands and accepts the risk of loss usually associated with moving heavy equipment over the earth. Purchaser accepts full responsibility for the placement of Shafer Redi-Mix and/or Shafer Brothers' vehicles on the premises and for any damage which may occur to those improvements made beneath, at or above the surface of the earth, to include but not limited to distributing and/or crushing of grade, sewage systems, irrigation, plumbing, infrastructure, flatwork, and any and all other improvements normally associated with residential and commercial improvements to real property.

INDEMNIFICATION. Purchaser, individually and as agent of the property owner, if any, shall indemnify and hold Shafer Redi-Mix and/or Shafer Brothers harmless against any and all liabilities arising out of claims made against Shafer Redi-Mix and/or Shafer Brothers for any and all damages of any type to the real and personal property which may occur during delivery, to include all liabilities, losses, costs, and expenses - including reasonable attorneys' fees incurred or suffered by Shafer Redi-Mix and/or Shafer Brothers by reason of any claim against Shafer Redi-Mix and/or Shafer Brothers or their agents or assigns.

NOTICE OF FURNISHING. Please take notice that Shafer Redi-Mix and/or Shafer Brothers are furnishing to the owner, general contractor, and/or designee written on the front of this ticket, at the address thereon, certain supplies and/or materials in connection with the improvement of the real property commonly know as the delivery address written hereon.

A copy of the legal description of said property is within the owner, general contractor, and/or designee's possession and is not attached hereto.

WARNING: THIS NOTICE IS REQUIRED BY THE MICHIGAN CONSTRUCTION LIEN ACT. IF YOU HAVE ANY QUESTIONS ABOUT YOUR RIGHTS AND DUTIES UNDER THIS ACT, YOU SHOULD CONTACT AN ATTORNEY TO PROTECT YOU FROM THE POSSIBILITY OF PAYING TWICE FOR THE IMPROVEMENT TO YOUR PROPERTY. Personal service is deemed accepted by the person signing hereon on behalf of the owner, general contractor, and/or designee.

ENTIRE AGREEMENT. This contract constitutes the sole and only agreement between Buyer and Sellers respecting said business or the sale and purchase described in this Contract and correctly sets forth the obligations of Buyer and Sellers to each other as of its date. Any agreements or representations respecting said business or its sale to Buyer not expressly set forth in this Contract are null and void.

Contact with wet, unhardened concrete, mortar, cement or cement mixtures can cause skin irritation, severe chemical burns or serious eye damage. Avoid contact with eyes and skin. Wear waterproof gloves, a fully buttoned, long-sleeve shirt, full length trousers and tight-fitting eye protection when working with these materials. If you have to stand in wet concrete, use waterproof boots that are tight at the top and high enough to keep concrete from flowing into them. If you are finishing concrete, wear kneepads to protect knees. Wash wet concrete, mortar, cement or cement mixtures from your skin with fresh, clean water immediately after contact. Indirect contact through clothing can be as serious as direct contact, so promptly rinse wet concrete, mortar, cement or cement mixtures from clothing. Seek immediate medical attention if you have persistent or severe discomfort. In case of eye contact, flush with plenty of water for at least 15 minutes. Consult a physician immediately. KEEP OUT OF REACH OF CHILDREN. USER AGREES TO CONVEY THIS WARNING TO ALL PERSONS WHOM MAY USE OR COME INTO CONTACT WITH WET (UNHARDENED) CONCRETE, MORTAR, AND CEMENT OR CEMENT MIXTURES.

CRYSTALLINE SILICA CARCINOGENIC POTENTIAL: Concrete frequently contains crystalline silica in concentrations greater than 0.1 percent, principally contributed by the aggregates. Respirable crystalline silica is classified by the International Agency for Research on Cancer as a known human carcinogen and by the National Toxicology Program as "reasonably anticipated to be a carcinogen". Crystalline silica in wet concrete is not respirable and does not pose a hazard when the concrete is in its plastic or unhardened state. Once concrete has hardened, airborne dust generated by grinding, sawing, drilling, breaking, etc., can lead to potentially hazardous exposures to workers and appropriate respiratory protection precautions should be taken.
